

Topic

Standards Covered

Introduction To Earth Science

Nature of Earth Science
Tools of Earth Science
Earth's Systems and Cycles

Earth Resources

Material Resources
Energy Resources

Plate Tectonics

Plate Tectonics
Earthquakes
Volcanoes

Shaping Earth's Surface

Weathering and Soil Formation
Agents of Erosion and Deposition

Earth Ocean and Atmosphere

Rivers and Ground Waters
Exploring the oceans
Movement of Ocean Water
The Atmosphere

Ecology

Weather and Climate
Interaction of Living Things
Biomes and Ecosystems
